

Appendix to Teaching Regulations

*applies to full-time and part-time Studies in English:
first-cycle, second-cycle and uniform long-cycle studies
at the Faculty of Medicine NCU CM
applicable as of academic year 2020/2021*

General information about the Faculty unit and the offered course or module:	
Name of Faculty unit	Department of Medical Biology and Biochemistry
Head of Faculty unit	Prof. dr hab. Alina Woźniak
Teaching coordinator at the Faculty unit	dr hab. Celestyna Mila-Kierzenkowska, prof. UMK
Remote teaching coordinator at the Faculty unit	dr hab. Celestyna Mila-Kierzenkowska, prof. UMK
Persons responsible for didactics in the field covered by the course:	dr hab. Celestyna Mila-Kierzenkowska, prof. UMK; dr hab. Karolina Szewczyk-Golec, prof. UMK; mgr Marta Pawłowska; mgr Roland Wesołowski; dr Paweł Sutkowy
Name of course:	Parasitology
Field of study:	medicine
Mode of study:	full-time Studies in English: uniform long-cycle studies
Year of study:	II
Office hours of academic teachers	according to the schedule available in the information board at Department of Medical Biology and Biochemistry and on the website of the Faculty unit
Form(s) of classes and number of teaching hours within the course or module	
Lectures	17
Seminars	0
Tutorials	18
Other	0
Rules of final examination	
Detailed conditions for final examination are presented in a separate appendix to Teaching Regulations for the MODULE	
Criteria of final practical examination or credit	
Not applicable	
Criteria for obtaining credit for the course	
<p>The prerequisite is to obtain at least 60% of the points for the correct answers in reports from tutorials (with the use of distant learning methods) and obtaining at least 30 points (60% of 50 points) from entrance tests.</p> <p>The tests will take place at the beginning of the each classes and will include the current material. The first test will be conducted during the first tutorial. Student is obliged to familiarize with the material contained in the program of the subject and prepare for classes according to the lectures and literature. There is only one term of passing the entrance tests, without possibility of improvement. Students who have not obtained the required number of points (30 points overall) take an additional test, which must take place before the exam. Failure of this additional test makes it impossible to obtain credit for the subject.</p> <p>Reports from the classes should be prepared in the form of worksheets with drawings of all parasites seen under microscope during tutorials (also with use of the distance learning methods).</p>	

Detailed OHS rules applicable during classes taught at the Faculty unit

1. Before attending the classes the Students are obliged to leave their outwear in the cloakroom and turn off their mobile phones.
 2. Students are obliged to possess and wear protective clothing, related to the specific character of each unit (e.g. disposable smocks, latex gloves, caps, non-slip safety shoes) and possess small medical equipments, (such as: stethoscope, tweezers, or reflex hammer).
 3. During the classes the Students must observe the rules concerning cleanliness, the ban on food and smoking. It is forbidden to appear under influence of alcohol or other intoxicants, or to use fire. Student breaching these rules shall be expelled from the classes.
 4. Without consent of the Academic Teacher, Students are not allowed to take pictures and/or film the classes with cameras, phones, smart phones, tablets or any other electronic devices with fitted camera. Moreover, the sound recording is strictly forbidden.
 5. Financial responsibility for material damages resulting from failure to comply with the H&S and Fire protection Regulations is borne by the Student.
 6. It is recommended to share the slideshows used during the classes with students, if possible, especially if they contain a lot of data, difficult to be noted down during presentation.
 7. Fill in the specific Health and Safety Regulations, characteristic for a particular unit.
- General students' duties during tutorials in Department of Medical Biology and Biochemistry:
All students should know the safety principles during tutorials and obey it. Student is obliged to:
- 1) Work during tutorials according to the general Health and Safety Regulations and obey all the instructions and indications given by teacher (e.g. washing hands before and after using a microscope).
 - 2) Take care after installation, tools and equipment as well as order in the place of work.
 - 3) Immediately inform teacher about the accident and the danger to health and life.
