

What should students obtain before the anatomy classes?

1. a white medical coat fastened at the front or tied at the back,
2. special medical footwear (easy to clean, i. e. a type of crocs shoes),
3. a cap or a white headscarf,
4. disposable nitrile or latex gloves (remember that latex gloves often cause allergic reactions),
5. dissection instruments (anatomical tweezers, scalpel),

Printing identifiers:

1. Before the start of classes each student is required to possess an identity card.
2. The pattern of identity card should be downloaded from the official web site of Department of Anatomy.
3. The data in the identity card is editable. You should input your name, surname and particular group which has been assigned by the Dean's Office.
4. The printed identifier should be worn in an exposed place during all anatomy classes and lectures.
